

EKRAMUL ALAM

Dhaka, Bangladesh | +8801752729605 | ekramul.alam21@gmail.com | [GitHub](#) | [LinkedIn](#) | [Codeforces](#)

SUMMARY

CSE graduate with competitive programming experience (Max Codeforces Rating: 1257) and strong foundations in Data Structures & Algorithms, Computer Networks, and Operating Systems. Proficient in Java, C++, Python, JavaScript, and PHP, with hands-on backend and full-stack development across Java Spring Boot, MERN, and Laravel ecosystems. Skilled in RESTful API design, relational databases (MySQL, PostgreSQL) and NoSQL (MongoDB), with clean OOP practices and design patterns. Familiar with AI-integrated development using LangChain, vector search, and FastAPI. Known for clean coding, quick adaptability, and strong problem-solving ability, with the capacity to communicate technical concepts clearly and effectively.

EDUCATION

Khulna University of Engineering & Technology
Bachelor of Science in Computer Science and Engineering

Khulna, Bangladesh
Mar 2022 – Jul 2026

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, PHP

Core CS: Data Structures & Algorithms, Operating Systems, Computer Networks, OOP, DBMS

Web & Frameworks: Spring Boot, Spring Security, JPA/Hibernate, React.js, Next.js, Node.js, Express.js, FastAPI, Laravel 11

Databases: MySQL, PostgreSQL (Supabase, pgvector), MongoDB, Flyway, Eloquent ORM, Mongoose

AI/ML: LangChain, Vector Embeddings, RAG, Prompt Engineering

Tools & DevOps: Git, Linux/Bash, Docker, CI/CD Pipelines, Cloudinary, JWT, OAuth2, REST APIs

Communication Skills: English (Full professional and Academic proficiency), Bengali (Native proficiency)

EXPERIENCE

Full-Stack Web Developer (Part-time)

Aug 2025 – Present

TechnoPLUS IT – Remote (Aus)

- Built and maintained a Laravel 9 + Vue.js LMS using Porto/Apiato modular architecture, applying OOP and design patterns (Repository, Service, Observer) across 15+ domain containers
- Independently researched and implemented a custom H5P interactive content integration from scratch, and designed RESTful APIs with role-based access control
- Implemented relational database tables with ordered pivot tables, SoftDeletes, and JSON metadata columns to support a flexible multi-content-type lesson structure

PROJECT EXPERIENCE

Moviecrates – AI Movie Recommender (*Java, Spring Boot, PostgreSQL*)

Jul 2026

- Built a multi-user movie-recommendation web app on a Java Spring Boot REST API backed by PostgreSQL + pgvector, with a Next.js/React frontend; containerized with Docker and deployed to Azure Container Apps
- Implemented backend-owned Google OAuth2 login issuing stateless HS256 JWTs in httpOnly cookies, and enforced per-user data ownership at the repository layer to structurally prevent IDOR, verified by JUnit integration tests
- Engineered an AI recommendation pipeline using Gemini embeddings and LLM generation over pgvector, with prompt-injection defenses, per-user rate limiting, and graceful degradation when AI keys are absent

AI-Powered Learning Platform (*Next.js, FastAPI, LangChain*)

Jan 2026

- Developed a university course assistant with AI-powered tutoring and intelligent content search using LangChain and vector embeddings
- Engineered a FastAPI backend with Supabase (PostgreSQL) and row-level security, supporting real-time updates and separate role-based portals for students and instructors

Automated Healthcare System (*MERN Stack*)

Nov 2024

- Built a full-stack healthcare platform with React.js, Node.js, Express, and MongoDB featuring doctor appointment booking, pharmacy cart, blood donor search, and emergency ambulance services
- Implemented JWT-based authentication with bcrypt password hashing and role-based access control (Admin, Moderator, User) with protected route middleware
- Integrated Cloudinary for image storage (user, doctor, and medicine uploads), following RESTful API design with a modular MVC backend structure

MemeGrove – Social Media Platform (*Laravel 11, MySQL*)

May 2024

- Designed and built a full-featured social platform from scratch with user authentication, image upload pipeline using Intervention Image, likes, comments, following system, and real-time event-driven notifications
- Implemented a custom trending algorithm combining engagement metrics with time decay, alongside tag analytics, infinite scroll pagination, and an admin moderation dashboard

ACTIVITIES

BUET CSE Fest 2026 Hackathon – Finalist | Dhaka, Bangladesh | Jan 2026

BITFEST 2025 – Executive Member | Khulna, Bangladesh | Dec 2024 – Jan 2025

SGIPC (Special Group of Interest in Programming Contest) – Campaign Editor | Khulna, Bangladesh | Aug 2023 – Present

Intra KUET Programming Contest 2023 – Best Team 2k20 Award Winner | Khulna, Bangladesh | 2024

Inter-University Programming Contests (IUPC) – Participant | KUET | 2025
